

To complement its extensive range of refrigerants, Harp International is able to offer our customers a complete package of lubricants for use in refrigeration and air conditioning applications. These highly refined products are available in a range of viscosities for all operating temperatures and a variety of package sizes ranging from 0.95 litre cans to 208 litre drums. Harp® lubricants give excellent thermal, chemical and operational stability and are suitable for use with reciprocating, screw and scroll compressors.

- 🔦 Harp® Naphthenic mineral oils for use with HFCs, Hydrocarbons and Ammonia.
- 🔦 Harp® Polyolester oils for use with HFCs, HFOs, Hydrocarbons and CO₂.
- 🔦 Harp® Alkylbenzenes for use with HCFCs and Ammonia.
- 🔦 Harp® Polyalkylene glycols for use in the automotive sector
- 🔦 Harp® Polyalphaolefins for use with HCFCs and Ammonia
- 🔦 Oils for vacuum pumps.
